The mission of the Southwest Women's Law Center (SWLC) is to create opportunities for women to realize their full economic and personal potential. Since our inception in 2005, we have worked to eliminate gender bias, discrimination, and harassment; to lift women and their families out of poverty; and to ensure all women have full control over their reproductive lives through access to comprehensive reproductive health services and information, including safe, legal abortion services. We seek to advance the well-being, rights and power of women through legal research, policy analysis, advocacy, community and stakeholder education, and coalition work at the local, state and national levels.
